PROFESSIONAL SUMMARY

Motivated B.Tech CSE (AI & ML) student with a 9.80 CGPA and hands-on experience in Python, Java, and C, with a strong foundation in Artificial Intelligence, Machine Learning, and software development. Proven track record across 3 internships delivering measurable results in deep learning, NLP, and Java development. Passionate about applying AI/ML to real-world challenges. Seeking internship or entry-level opportunities to contribute to innovative software and AI-driven projects.

TECHNICAL SKILLS

Languages: Python, Java, C

AI/ML & Deep Learning: Machine Learning, Deep Learning, Model Training & Evaluation, Feature Engineering, Data Preprocessing, ML Pipelines, Fine-Tuning, Computer Vision, Object Detection

Frameworks & Libraries: TensorFlow, PyTorch, Scikit-learn, YOLOv8, Hugging Face Transformers, FastAPI, Flask, Django, Pandas, NumPy, OpenCV

NLP & Generative AI: Natural Language Processing (NLP), Large Language Models (LLMs), GPT Models, Generative AI, Retrieval-Augmented Generation (RAG)

Cloud & DevOps: AWS (Academy Certified), GCP, Azure, Docker, CI/CD, Git, GitHub, JIRA, Agile/Scrum

Databases: SQL, MongoDB, Firebase Firestore, Firebase Realtime Database

Web Technologies: HTML, CSS, JavaScript, React (basic)

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem-Solving, Analytical Thinking

EDUCATION

B.Tech, Computer Science Engineering (AI & ML) | *St. Peter's Engineering College, Hyderabad* 2023 – 2027
CGPA: 9.80 / 10.0

Intermediate (Class XII) | *College of Excellence, MJPTBCWRS* 2021 – 2023
Percentage: 97.0%

SSC (Class X) | *MJPTBCWREIS — College of Excellence* 2021
CGPA: 10.0 / 10.0

INTERNSHIP EXPERIENCE

AIML Intern — Intelligent Poaching Detection & Response System | *Infosys Springboard 6.0* Nov 2025 – Jan 2026

- Developed and fine-tuned YOLOv8 object detection models, improving precision and recall through iterative feature engineering on a 2,000+ image wildlife surveillance dataset.
- Pre-processed and cleaned annotated wildlife images, reducing data noise by ~30% and improving model evaluation metrics (mAP, F1-score).
- Collaborated in agile sprint reviews with a 6-engineer cross-functional team to deliver all milestones on schedule.

Tech Lead Intern — Summer of AI 2025 | *Viswam.AI | Swecha | IIIT Hyderabad (Powered by Meta)* Jun 2025 – Aug 2025

- Built 5+ Python-based machine learning models across supervised learning and NLP tasks, achieving 85%+ accuracy on all evaluation benchmarks.
- Delivered 3 mini-projects covering data analysis, AI ethics, and responsible AI deployment under IIIT Hyderabad faculty mentorship.
- Gained hands-on experience in model training, evaluation, and production deployment pipelines through expert-led ML sessions.

Java Development Intern | *Cognifyz Technologies* Jan 2025 – Apr 2025

- Developed and delivered 4+ Java application modules using core Java and OOP principles, meeting all project deadlines.
- Maintained code quality by identifying and resolving 15+ bugs through structured debugging and peer code review.

PROJECTS

Wild Eye AI — Poacher Detection System | *Python, YOLOv8, FastAPI, React, MongoDB*

- Built an AI-powered real-time surveillance system detecting poachers, weapons, and rangers using YOLOv8, achieving 89%+ mAP on a custom 2,000-image dataset.
- Integrated live threat alerts with geolocation mapping, email notifications, and an analytics dashboard, reducing false-positive rate by ~20% through confidence threshold tuning.
- Deployed full-stack app on Render — live at wildeye-z8q2.onrender.com | GitHub: [sanny1724/INFOSYS-SPRINGBOARD](https://github.com/sanny1724/INFOSYS-SPRINGBOARD)

EduEarn — Gamified Quiz Application | *Android, Java, Firebase, XML*

- Built an Android learning app with real-time quiz battles and leaderboards, scaling to 50+ concurrent users via Firebase Realtime Database and Firestore.
- Implemented Firebase Authentication with Google Sign-In, reducing user onboarding time to under 30 seconds.
- Designed a competitive gaming-inspired UI/UX, achieving a 4.6/5 rating in internal usability testing with 20+ participants. GitHub: [sanny1724/eduearn](https://github.com/sanny1724/eduearn)

Data Analytics Dashboard | *Power BI, SQL, Python, Pandas*

- Built interactive Power BI dashboards visualizing business KPIs, sales trends, and performance metrics for faster data-driven decisions.
- Cleaned and transformed raw datasets using Python (Pandas) and SQL, reducing reporting preparation time by ~40% through automated pipelines.
- Generated actionable insights from structured data using analytical reporting, charts, and dynamic filters.

Technith — Personal Tech-Brand Website | *HTML, CSS, JavaScript, Netlify*

- Designed and deployed a fully responsive personal website with authentication flow, achieving 100% mobile responsiveness and sub-2s page load time.
- Served 200+ monthly visitors — live at technith.netlify.app | GitHub: [sanny1724/technith](https://github.com/sanny1724/technith)

ACHIEVEMENTS & LEADERSHIP

- VBYLD (National Level): Selected for Viksit Bharat Young Leaders Dialogue; presented a startup pitch on "Making India the Startup Capital of the World" before government officials and industry leaders.
- Runner-Up (Team Lead) — National Level Virtual Innovate Hackathon 4.0, Ematix Embedded & Software Solutions Pvt. Ltd.
- Winner — Paper Presentation at two national events: Technical Fest (Malla Reddy University) and Project Expo (BVRIT College).
- Aspire Leaders Program (Cohort 4, 2025), Aspire Institute (Harvard University initiative): Selected among 9,362 finalists from 45,228 applicants; completed leadership, AI, and social entrepreneurship modules.
- Amazon ML Summer School 2025: Selected for Amazon's flagship ML training program covering core ML concepts and real-world case studies.
- Campus Ambassador at Unstop, Internshala (ISP), and Naukri; Campus Mantri at GeeksforGeeks — promoting hackathons, internships, and coding initiatives.

CERTIFICATIONS

- NPTEL (IIT Madras) — The Joy of Computing Using Python (Elite Certified, 75%)
- AWS Academy Graduate — AWS Academy Machine Learning Foundations
- Infosys Springboard — Introduction to Python, Mastering Python, and Artificial Intelligence Primer
- Coursera (Rice University) — Python Data Visualization
- Coursera — C for Everyone
- In-Person AI/ML Workshop — Indian Institute of Technology (IIT) Bombay
